Detaljer

We are all aware of the ongoing climate crisis, but it is often hard to see what we as individuals can do to contribute at our level. We struggle to find both the right things to focus on and how to do things differently to reduce our footprint.

UNYA is organising a presentation and discussion as part of the Aalborg Climate Week, where we aim at providing elements of answer to the following complex questions:

- (1) What does our individual climate footprint consist of?
- (2) How can we reduce it in a meaningful and effective way?
- (3) Which tools can we use to manage our footprint more effectively?
- (4) How to change your habits in a durable manner?

Agenda:

17:30 – Introduction to UNYA and the climate week
17:35-18:25 – Presentation
18:25-18:30 - Break
18:30-19:00 – Discussion and workshop
19:00 – Conclusion and announcement of upcoming events

We look forward to seeing you at the event ! 😊

This event is part of the Aalborg Climate Week vol. 2. :
